

Thaís Nomi Valente

Everything can be improved.

Thaís has always believed in herself. She did so through the eleven years of Med School that made her a surgeon and again recently when she decided to create her own business. As of 2014, Thaís has been a co-founder at Porto Exit Games, a small company offering a unique gaming experience. To better understand how she and her partners could pull off this venture, they travelled from Madrid to Miami and beyond in search of clues to help them build the ultimate experience in games.

Thaís's background as a doctor, surgeon and entrepreneur has taught her that, no matter the business, it can always be improved. That is one of her main drives.

She believes one must not be afraid of change and when it comes to careers, you are always on time to make a shift. Thaís also testifies to the power of learning by doing. She hopes these ideas together with her work will inspire others to pursue their dreams.
